Anyone who can bring observers to a trial please do to help make it a better day, we can't ride without observers.

Hello to you all. This edition of the newsletter covers the last two trials as I was unable to create a June newsletter. Firstly a mention to the club members who are competing this weekend in the Ladies cup in Canberra, on behalf of the club good luck and have an excellent time. There is a practice day coming up in July and everyone is welcome. We also have the Christmas in July, our mid year social occasion, it is a good opportunity to catch up with out the pressures of competing.

So as to dispel any rumors, I am no longer the Gas Gas dealer in Tasmania, this is a personal choice due to other commitments. Please contact Paul or Andrew at the Hell Team if you need anything. Visit the website as you can order direct from there. However if you need assistance at a trial please ask as I may have some parts left over.

Let's get into it!

Catty.

The Fezz Report:

Well it's that time of the year everyone is very busy end of financial year things late nights early starts, so sorry we missed an edition of our newsletter but hey guess what we have a bumper one now!!

Well what a wet trial we had at Mt Joy, shame we had to cut the numbers to 4 laps but we are to respect the land owners when it gets so wet so quick (be nice to be welcomed back to such a great trials site?). But a good day was had by all and we must once again thank the Bayles family for the use of their property once again. We can not forget the members who put their time in the week before to set the sections as well, thank you. It was nice to have a trial with everyone got to finish and again some new faces in the crowd and on bikes as well, welcome to all the new riders and members.

On the subject of new riders it was confirmed that all new riders regardless of ability are not to compete in any grade higher than C grade for their first trial from now on, it will give them a chance to become familiar with how a trial and their bike works before stepping up a grade or two.

Once again thank you to our hard working officials who braved the wind and the rain so we could have a trial, please remember to thank all officials at the end of the day as they are only volunteers who give up their time for the love of the sport or because they have a friend or family member riding. Well done to Chris Bayles who has been on the big island competing in the TROY series in Victoria who came away with 2nd in expert at Anakie and 5th at Mt Bolton.

Well done to the southern members who set a fantastic trial at Jericho what a great day was had by all.

The level of the sections was spot on and I never heard one rider complain about the sections, so that has raised the bar for the rest of us now!

Well done to Peter Bayles who competed in round 3 of the Vic series and came away with 3rd in masters. Good luck to Brooke Luscombe and Chloe Medwin who are competing in the Women's cup over the big water this month as well.

Well that's it for me see you all next trial or the training day at the Joy

Till next time may all your sections be clean ones

The Prez, Fezz ☺

Mt Joy Madness Trial

A wild and windy day greeted 26 brave soles at the well used and much loved Quarry area of the Mt Joy property. With no break in the weather looking imminent, the decision was taken to reduce the trial to 4 or possibly 5 laps of the wonderful sections laid out the previous weekend, if necessary to score ourselves and not expect observers to stand out in the atrocious conditions. With Chris Bayles still away on the mainland flying the Tassie Flag the top class was A-Grade whose numbers had been reduced to one by the weather and a variety of injuries to the southern division of the class. Kurt Pickering didn't let this deter him from putting in a top effort in the wet and slippery conditions to complete his four laps in only 66 points. The Ossa was running well and Kurt looks more at home on it every time we see him.

B-Grade numbers were also missing some southern attendance with Mike Amy also out injured and not making the trip north. However the battle still raged between the usual front runners of Pete and Dylan Bayles. Dylan was only a point behind dad this time and with this rapid rise through the ranks it won't be long before the tables are turned. (I did hear that Dylan mainly needs to work on his math at this point as his arithmetic had him 1 point in front of dad not one point behind !!)

C+ was the usual crowd minus Nathan Purton (away working), Alison Parker (away in England) and Tony Demeijer (busy with other commitments). The course was not big but had some very tricky tight turns on loose rocks and some short approach slippery obstacles. Josh King was let out of Roseberry for this event and put in a strong ride for third place and a different face on the podium for a change!! With 10 points between 1st and 6th this class is always closely contested and the top ½ doz competitors are constantly swapping positions at the top of the list. Nigel Munday took the honours this time just one point ahead of Neil Berne with Mike Wellman only three points behind Josh for 4th. An unusual sight this time round was Colin Woodberry on a “Water Cooled Mono”Hope someone got a photo!!!

C-Grade was, as usual the biggest class featuring 12 entries. Another brand new face this month, Robert Knee, top level state MX rider, Rob took to the completely different discipline very well and certainly seemed to enjoy the day, his improvement over just four laps was impressive and I'm sure he'll be another rising star in this very competitive grade. Perhaps after a day of walking the course behind Rob, his dad Kerry may be able to be talked into a bike as well!! “Prezz Fezz” was the winner this month, two points in front of class newcomer Andrew Rouse 2nd, obviously enjoying the slippery conditions on the Beta Evo. Five points covered the next three riders with class regular Michael Bayles 3rd just slipping between Andrew and the seemingly inseparable girls Brooke Luscombe 4th and Chloe Medwin 5th, the girls are constant visitors to the top end of the grade now and we wish them luck as they travel to Canberra to represent us in the 2011 Sherco Women's Cup. Bradley Shadbolt didn't do himself any favours when he decided to miss section 1 for the first couple of laps and land himself a couple of 5's. Next time he'll have a better look at his card before he hands it in!! Filling out the midfield was Mike Hull, Ian Gabbedy, Bryce Caletti, and Brett Langworthy, with only a handful of points covering all of these riders it's not hard to pick the most unpredictable grade, a five or two here can move you from first to near last !!

Clubman saw a repeat winner with Mike Francis taking the spoils again, this time on a tiny 2 points, Mike's starting to smooth out his style a bit now and he must be starting to eye off the C-Grade lines with a bit more confidence. Stacy Langworthy and Chloe Bayles toughed out the weather to finish the day on a couple of very respectable scores for the atrocious conditions.

All in all another great day at “The Joy” with special thanks to those invaluable observers who stood out in that horrible weather all day just so we could all have some fun. You folks are THE BEST!!!!

Jericho Joviality

Yet another shocker of a day greeted the northern members on their early awakening Sunday morning, however, as we headed further south things started to look a little brighter and by the time we reached Jericho the southern contingent had turned some fine weather on for the morning. Chris Bayles was back from his most recent mainland foray and once again had the Expert class to himself. “A little soft” was his call so he re-set a couple of things to make it a bit more difficult for himself. Chris still managed to complete his day for only 26 marks lost, it would seem that his mainland competition experience is pushing him to even greater heights. Keep it up Chris !

A-grade was the full field with James bringing back the barking Monty again to display more of his super smooth style on the way to a convincing win, it seems those southern rocks suit him well. Pete L was back in form with a strong 2nd and Kurt guided the Ossa to a fine 3rd place

B-Grade, again the father son, Pete and Dylan battle raged on, this event suited Pete with some BIG obstacles and a bit less of the hopping and jumping about. Mike Amy followed with a fine third place very close to Dylan. C'mon there Mike if you're going to have a hand in setting the trial you're supposed to make it suit you!!

C+ saw the usual regulars on the podium with Neil Berne once again showing the rest of the field a clean set of heels, with not even a point dropped on his first card and a finishing score of 8 he's a hard man to track down. Mike Wellman 2nd on 13 points must be kicking himself as I believe he missed the first gate in section 2 costing himself a 5 early in the day.....you do the sums! Captain Sherco (Nigel Munday) was right behind them in 3rd and with two late 5's he was on the pace all day, he told us he'd lost 10kg since the last trial, that's got to be cheaper than carbon fibre and titanium . The rest of the class tagged along behind these 3 "leading lights" all struggling particularly, with Al's Section 2. This section seemed to be the decider with a very tight turn at the top over a rough surface and downhill so once again the rest of us know what we need to work on!

C-Grade and a new name at the top of the list, Brooke Luscombe continued her ever improving form to narrowly sneak ahead of "Prezz Fezz" with Bradley Shadbolt taking up the final podium position. Stork returned to play after an absence of a few events and noticed his lack of practice, finding the slippery rocks after lunch a bit scary, I'm sure Fiona enjoyed the early knock-off from her station on section 5. Ian Gabbedy had machine problems, looking at one stage as though he was making a cuppa, parts are ordered I believe! Mike Hull was just off the podium in fourth, Andrew Rouse didn't get along with the rock at the start of section 2, and David Catt was slightly off his usual form, feeling a bit crook at the start of the day. Section 2 seemed to be the challenge for the C-Graders, more of those tight turns and big rampy rocks!!

Mike Francis took the honors again in the clubmen section dabbing only 17 times for the day, Chloe Bayles made a start but the rocks and the weather were a bit tough and young Will Ferrall took on the hills with more confidence but had the best of the junior section on the other side of the carpark.

Another top trial from the very small but dedicated Southern Crew, there's not many of them so a full trial is quite a bit of work for them. Thanks heaps guys and gals we all appreciate your efforts and your spectacular vistas. To the observers and the scorers in the tent, a million thanks, as always, if there was anything we could do to organize the weather a bit better believe us we would !!

MT JOY Practice Day: 24 July

The format of the training day at Mt Joy on 24 July will be:

Time will be from 11:30 to 15:00 with 30 mins for lunch.

We will split into two groups and go around the sections from the last Mt Joy Trial. We will be riding through one at a time to identify area's where we have problems.

We will discuss a better riding techniques before trying the section again - hopefully with better results.

While you wait for your turn - watch closely other riders lines & techniques - you can learn a lot.
